PALINOV - Pallet feet

an alternative to wooden pallets

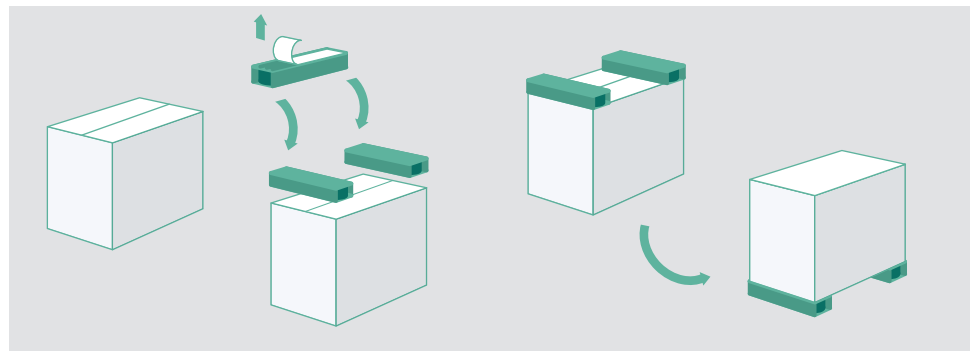

The PALINOV pallet foot is a 100% recyclable cardboard pallet foot which can replace pallet feet and/or wooden or any other type of pallet. Unlike wood, PALINOV pallet feet are not subject to ISPM-15 regulations.

They can be combined with different bases, such as honeycomb sheets or corrugated cardboard sheets and can, therefore, be used to create pallets of any shape or size.

Benefits features

The only cardboard pallet foot on the market to combine light weight with a high level of mechanical performance.

- > 100% recyclable | Eco-friendly
- > Support for heavy loads | Structure resistant to friction and impacts
- > Lightweight and moisture resistant
- > Small storage area required by comparison with assembled pallets
- > Not subject to ISPM 15 | Free from nails, staples or splinters
- > Different height options | the number of tubes can be adjusted according to the load to be supported
- > Option : self-adhesive which makes them easy to use

You can fix PALINOV pallet feet directly underneath the product making it possible to create lightweight, single-material, 100% recyclable packaging, accepted anywhere in the world and which can be directly handled by a pallet truck or forklift truck without strapping or film-wrapping.

Options

SELF-ADHESIVE

PALINOV feet can be delivered untreated or with the top surface self-adhesive, with four lines of hot-melt glue protected by silicone paper

4 OPENING VERSION

The PALINOV is available with 4 way version, self-adhesive or not, in the form of 3 Palinov feet glued into a Flatcor

Technical specifications

PALINOV feet are made of cardboard tubes glued inside an envelope of two U-sections made of glued and laminated cardboard.

Each tube can support :

- > 100 kg dynamic load
- > 200 kg static load

Example: a PALINOV 600 mm long with 6 tubes will withstand a 600 kg dynamic load and a 1200 kg static load.

- > Fixing PALINOV pallet feet directly underneath the product

- > Can replace the wooden accessories used for transportation.
