UCOR - U Profile

Built-in protection

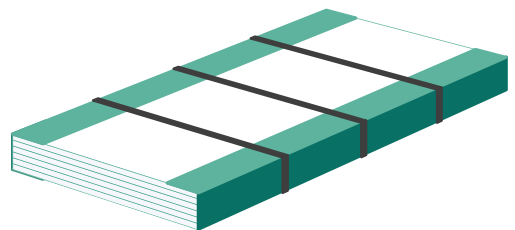

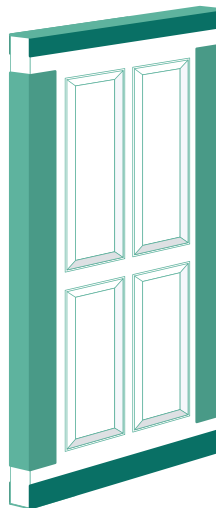

Designed for the complete protection of your products' fragile corners and edges UCOR profile adapts precisely to the dimensions you require. Quick and easy to install thanks to the gripper effect, it can also be used to box your long products by interlocking two UCOR profiles.

Its compacted paper composition gives you a very high resistance to crushing.

Benefits features

- > 100% recyclable | Eco-friendly
- > Can be FSC® certified
- > Easy to use
- > Extremely strong : created by a process of lamination involving layering multiple bands of strong paper
- > Made to measure | Sides can be symmetrical or asymmetrical
- > Option : Abrasion-resistant treatment, "gripper" effect allows a natural fit onto your products

Examples of use

The mark of responsible forestry

Technical specifications

The width of the UCOR groove will be made to the nearest millimetre to fit with the product to be protected or the housing to be made.

The thickness of the UCOR will provide the desired strength and stiffness.

We will be happy to advise you on the best size options according to your requirements.

> Example of boxing for long pieces using 2 interlocked UCOR profiles
