## FLATCOR - Cardboard protection

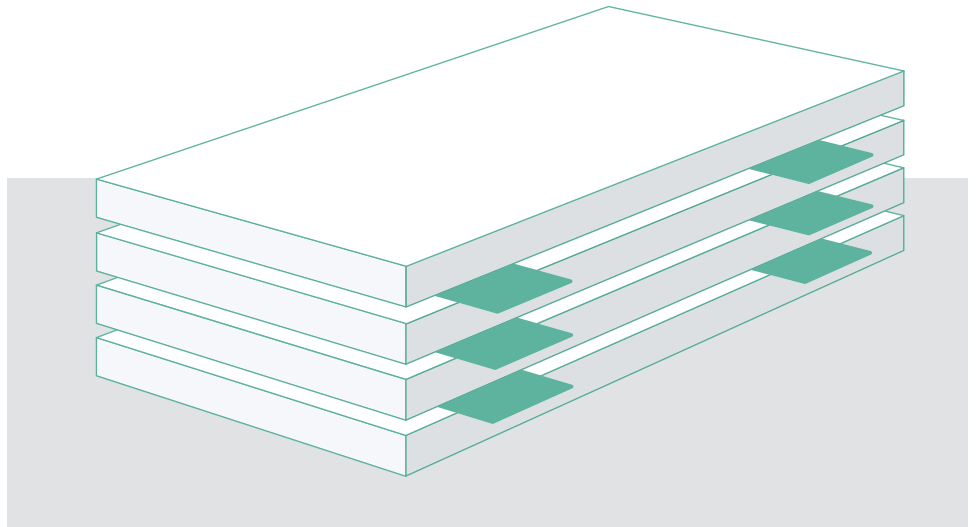

### Protective spacer

Made of durable paper sheets laminated and glued together, Flatcor protects against knocks and scratches.

This spacer allows you to eliminate damage to your products caused by impacts or friction, for example between lacquered aluminium profiles or sheets of wood or metal.

### Benefits features

- > 100% recyclable | Eco-friendly
- > Can be FSC® certified
- > Protects your products
- > Not subject to ISPM-15 regulations
- > Replaces wooden accessories
- > Extremely strong : created by a process of lamination involving the layering of multiple bands of strong, durable paper
- > Made to measure
- > Option : abrasion resistant surface.

The mark of responsible forestry
